

Heart of Yorkshire

Education Group

Safeguarding and Child Protection Procedures 2022

These procedures underpin the Safeguarding Policy of the Heart of Yorkshire Education Group which is reviewed annually in line with statutory guidance.

The procedures apply to all staff and are consistent with those of:

North Yorkshire Safeguarding Children Partnership/Wakefield Safeguarding Partnership/
West Yorkshire Consortium Procedures.

Introduction

The Heart of Yorkshire Education Group is committed to ensuring the welfare and safety of all children and vulnerable adults in its colleges and follow the procedures of the relevant area Safeguarding Partnerships.

We recognise that some children and vulnerable adults may be especially vulnerable to abuse, e.g. those with special educational needs and disabilities or physical health issues, Children in Care, Young Adult Carers and those living in other adverse circumstances. We also recognise that children and vulnerable adults who are abused or neglected may find it difficult to develop a sense of self worth and to view the world in a positive way and that Adverse Childhood Experiences may impact on behaviour. We recognise that some children and vulnerable adults who have experienced harm may harm others. We will always take a considered and sensitive approach in order to support all our students.

Due to their day-to-day contact with students, College staff are uniquely placed to observe changes in young people's behaviour and the outward signs of abuse. Students may also turn to a trusted adult in college when they are in distress or at risk. It is vital that College staff are alert to the signs of abuse, both inside and outside College and understand the procedures for reporting their concerns.

Concerns will normally endeavour to discuss all concerns with parents/carers, however there may be exceptional circumstances when the Group will discuss concerns with Police/Social care without parental knowledge (in accordance with Child Protection Procedures)

The Group Safeguarding Lead /Deputy Lead/DSLs will record and appropriately store, any concerns. The Safeguarding team will act on identified concerns appropriately by reporting concerns to Children's Social Care and support the provision of early help to help prevent concerns from escalating.

Coronavirus

We recognise that the recent global Covid 19 pandemic and other world events have had a significant and ongoing impact on some of our pupils and increased pressure on our safeguarding staff. It is recognised that Covid lockdowns have been a **highly vulnerable time for children and families. We understand that poor behaviour may be a sign of trauma.** During the pandemic we implemented measures in our colleges, such as social distancing, sanitising, enhanced cleaning procedures, mask wearing and online learning/meetings according to government guidance and will do so again if required.

Terminology

Child/Children include everyone under the age of 18.

Child protection (CP) refers to the processes undertaken to protect children who have been identified as suffering or being at risk of suffering significant harm.

Early Help providing support as soon as a problem emerges at any point in a child's life, from the foundation years through to the teenage years. It is about providing support quickly whenever difficulties emerge to reduce the impact of problems.

Early Help Assessment All Early help assessments offer a basis for early identification of children's additional needs, the sharing of this information between organisations and the coordination of service provision. Early help assessments require consent and should identify

what help the child and family require to prevent needs escalating to a point where intervention would be needed via a statutory assessment under the Children Act 1989. The findings from early help assessments may give rise to concerns about the child's safety and welfare. In these circumstances, it should be used to support a referral to Children's Social Care: however this is not a pre-requisite for making a referral in emergency circumstances. CAF – Common Assessment Framework is one form of early help inter-agency assessment. Signs of Safety -3 column and scaling is another example.

TAC/F/S Team around the child/family/school

Staff refers to all those working for or on behalf of the college, full time or part time, temporary or permanent, in either a paid or voluntary capacity.

Parent refers to birth parents and other adults who are in a parenting/carer role, for example stepparents, foster carers and adoptive parents.

LADO/Designated Officer –a post in the local authority, to coordinate and manage allegations against staff.

MASH – Wakefield's children social care/family services/front door/Multi Agency Safeguarding Hub.

MAST - North Yorkshire Multi-Agency Screening Team

WSCP – Wakefield Safeguarding Children Partnership

NYSCP – North Yorkshire Safeguarding Children Partnership/Children's Social Care

CAMHS - Child and Adolescent Mental Health Services

FIM – Future in Mind: Programme to help promote, protect and improve our young people's mental health and wellbeing.

Signs of Safety – an approach to family intervention work in Wakefield and Selby, used across the continuum of need. This has been incorporated into **Wakefield Families Together – Connecting Practice Approach** now used within the WSCP. NYCP uses the Signs of Safety approach in their Early Help Strategy.

Restorative Approach – using language and skills to reduce conflict and foster relationships in order to help people reach sustainable solutions to problems. This is the overarching aim of any work and training in the Wakefield District

Continuum of Need – outlines the different levels of support for children and families in the Wakefield and Selby Safeguarding Partnerships.

DSL - Designated Safeguarding Leads

DT – Designated teacher supporting CiC/LAC/CLA

MARF – Multi-agency Referral Form used in Wakefield District. Selby uses a Universal Referral Form.

MACE - Multi Agency Child Exploitation (Sexual or Criminal)

ACES – Adverse Childhood Experiences

CiC/LAC/CLA – Child in Care/Looked After Child/Child Looked After

YAC – Young Adult Carers

Safeguarding Adults - The duty to **Safeguard adults** applies to anyone over the age of 18 with care and support needs; AND is experiencing, or at risk of abuse or neglect; AND as a result of the care and support needs is unable to protect themselves from either the risk of, or the experience of abuse or neglect.

Roles and Responsibilities in College

1.1 Group Responsibilities

Executive Director - Student Experience and Support (Senior Lead)

Clare Allcock c.allcock@wakefield.ac.uk

Executive Director - People (Senior Lead)

Karen Sykes k.sykes@wakefield.ac.uk

Group Safeguarding Lead

Carol Price c.price2@wakefield.ac.uk 01924 789755

Deputy Lead (CiC/LAC DT)

Michelle Jones m.jones@wakefield.ac.uk 01924 789755

Head of Pastoral Curriculum

Jannine Godfrey j.godfrey@wakefield.ac.uk 01924 789874

Safeguarding Governor Lead

Dmitry Fedotov dmitry.fedotov@youth-association.org

1.2 Wakefield College

DSLs	Name	Contact Details

SESL & DSL	Debbie Godwin	godwind@selby.ac.uk	01757 211176

All staff have a responsibility for Safeguarding no matter what their role. These are outlined clearly in Part One of Keeping Children Safe in Education 2022. All staff must read Part 1 of this document alongside Annex B and complete an assessment to demonstrate their understanding.

The Board of Governors ensures that the College complies with legislation by addressing all aspects of Part 2 of KCSIE 2022 which details they must:

- Nominate a Safeguarding Governor.
- Has a nominated governor (usually the chair) who liaises with the Designated Officer in the event of an allegation being made against the Principal.
- Comply with their duties under legislation - including the Prevent Duty 2015, SEND and use of reasonable force.
- Contribute to interagency working and plans including information sharing.
- Take into account Local Authority procedures.
- Ensures an effective safeguarding policy (updated annually and on website) is in place as well as staff behaviour policy and both are provided to, and followed by, all staff.
- Has considered how children are taught about safeguarding.
- Has ensured the Group has a clear system and process for mental health concerns.
- Has evidence of the child voice and that there are systems in place for feedback and students' views.

- Ensure that there are appropriate filters and monitoring systems are in place, whilst ensuring that “over blocking” does not lead to unreasonable restrictions as to what children can be taught with regard to online teaching and safeguarding. UK Safer Internet Centre have produced a guide around this which can be accessed via - <https://saferinternet.org.uk/guide-and-resource/teachers-and-school-staff/appropriate-filtering-and-monitoring/appropriate-filtering>
- Ensure there is a designated Child in Care (CiC) teacher and ensures appropriate training. Ensure staff have awareness of this group and their needs, including contact arrangements.
- Have procedures for dealing with allegations of abuse made against members of staff including allegations made against the Principal and allegations against other children. Procedures are in place for referral to the disclosure and barring service (DBS).
- Ensure safer recruitment procedures are followed, that include statutory checks on staff suitability to work with children and that there is recording of this. Ensure volunteers are appropriately supervised. Ensures at least one person on appointment panel is safer recruitment trained.
- Ensure a training strategy is in place that ensures all staff, including site staff and the Principal, receive information about the colleges’ safeguarding arrangements on induction and appropriate child protection training, which is regularly updated in line with any requirements of the SCPs.
- The Board of Governors should have child protection training every three years on their strategic responsibilities in order to provide appropriate challenge and support for any action to progress areas of weakness or development in the Group’s safeguarding arrangements. Training/updates will also be carried out on a yearly basis to ensure that Board of Governors and Advisory Group members are aware of any legislative changes and to provide bespoke safeguarding information for each college.
- The Board of Governors should be aware of their obligations under the Human Rights Act and the Equality Act and their local multi agency safeguarding arrangements
- Under no circumstances should the Board of Governors be given details of individual cases. Board of Governors may however be provided with a report at the end of the academic year outlining the number of cases dealt with and other statistics which do not identify students.
- Governors will receive regular updates as well as a full Safeguarding report annually. They will also have sight of relevant safeguarding audits.

Senior Leads

The Senior leads will:

- Appoint a Group Lead who is a member of the senior leadership team, trained annually and that the responsibilities are explicit in the role holder’s job description. The Group Lead should be given time, funding and training to support this. There should always be cover for this role.
- Allocate sufficient time, training, support and resources, including cover arrangements when necessary, to enable the Deputy and other DSLs to carry out their roles effectively, including the assessment of students and attendance at strategy discussions and other necessary meetings.
- Ensure that the safeguarding and child protection policy and code of conduct are implemented and followed by all staff.
- Ensure that students are provided with opportunities throughout the curriculum to learn about safeguarding, including keeping themselves safe online.
- Liaise with the Designated Officer where an allegation is made against a member of staff.
- Ensure that anyone who has harmed or may pose a risk to a child is referred to the Disclosure and Barring Service.
- Undertake Senior Lead training regularly
- Ensure that the college/school has a clear line of accountability in their individual college/school for the management and supervision of safeguarding and child protection; to ensure staff are competent to carry out their responsibilities for

safeguarding and promoting the welfare of students in order that staff members feel able to raise concerns about a student

- Ensure that each college within the Group adheres to Safer Recruitment Procedures in line with the Group's Safer Recruitment policy and ensure that appropriate checks are carried out on all members of staff and volunteers.
- Creates a culture where the welfare of students is paramount, and staff feel confident to challenge over any concerns.

Group Safeguarding Lead Responsibilities

- The Group will ensure there is a member of the senior leadership team in the Group Safeguarding Lead role and that appropriate cover is provided if they are unavailable.
- This person should have the status and authority within the college to carry out the duties of the post including committing resources and, where appropriate, supporting and directing other staff.
- Any DSL/deputy lead will be trained to the same standard and the role will be explicit in their job description.
- Whilst the activities of the Group Safeguarding Lead can be delegated to appropriately trained deputies/DSLs the ultimate lead responsibility for child protection, as set out, remains with the Group Safeguarding Lead, this lead responsibility should not be delegated.

The Group Safeguarding Lead will:

- Ensure the safeguarding and child protection policy is updated in line with yearly KSCIE changes.
- Ensure the Safeguarding and child protection policy is available publicly and parents are aware of the fact that referrals about suspected abuse or neglect may be made and the role of the Group.
- Ensure each member of staff has access to and understands the Group's child protection policy and procedures, especially new and part time staff.
- Ensure staff are made aware of changes to the safeguarding and child protection policy and their roles and responsibilities.
- To provide advice and guidance to senior leaders and provide them with regular reports, information and data relating to safeguarding across the Group.
- Liaise with the Principal/ Executive Directors to inform them of issues especially on-going enquiries under section 47 of the Children Act 1989 and police investigations.
- To work in partnership with the Group's partner agencies regarding safeguarding strategy, policy and practice.
- Link with the local LSCB to make sure staff are aware of training opportunities and the latest local policies on safeguarding.
- Where students leave the Group ensure their child protection file is transferred to the new school or college as soon as possible. This should be transferred separately from the main student file, ensuring secure transit and confirmation of receipt should be obtained.
- To take responsibility for keeping up to date with relevant research and developments related to safeguarding and applying it to practice.
- Meet with DSLs on a regular basis, review cases and offer support, advice and guidance where necessary.
- Ensure staff across the Group have received appropriate safeguarding training and this is regularly updated where necessary.
- Ensure consistency of approach across the Group safeguarding and counselling staff.

DSL responsibilities

Manage referrals

DSLs will:

- Refer cases of suspected abuse/support staff to make referrals to the local authority social care direct;
- Refer cases to the Channel programme/support staff to make referrals to the Channel programme where there is a risk of radicalisation;
- Refer cases where a crime may have been committed to the Police as required;
- Act as a source of support, advice and expertise for all staff
- Act as a point of contact for the safeguarding partners

Work with others

DSLs will:

- Liaise with staff on matters of safety and safeguarding and when deciding whether to make a referral by liaising with relevant agencies;
- Liaise with police, social services, MASH teams, etc. to support ongoing safeguarding investigations.
- Liaise with appropriate mental health support teams, where concerns are linked to mental health
- Help promote educational outcomes by sharing information about the welfare, safeguarding and child protection issues that children with a social worker are experiencing, or have experienced, with teachers and college leadership staff. Maintain a culture of high aspirations for this cohort; supporting teaching staff to identify the challenges that children in this group might face and the additional academic support and adjustments that could be made to best support these children.

Undertake training

The entire safeguarding team will undergo training (including Prevent Awareness) to provide them with the knowledge and skills required to carry out the role. This training should be updated at least every two years.

In addition, knowledge and skills will be refreshed (this might be via e-bulletins, meeting other designated safeguarding leads, or simply taking time to read and digest safeguarding developments) at regular intervals, as required, but at least annually, to allow them to understand and keep up with any developments relevant to their role so they:

- Understand the assessment process for providing early help and intervention, for example through locally agreed common and shared assessment processes such as early help assessments.
- Have a working knowledge of how local authorities conduct a child protection case conference and a child protection review conference and be able to attend and contribute to these effectively when required to do so.
- Ensure each member of staff has access to and understands the college's safeguarding and child protection policy and procedures, especially new and part time staff.
- Are alert to the specific needs of children in need, those with special educational needs and young adult carers.
- Are able to keep detailed, accurate, secure written records of concerns and referrals.

- Understand and support the College with regards to the requirements of the Prevent duty and can provide advice and support to staff on protecting children from the risk of radicalisation;
- Obtain access to resources and attend any relevant or refresher training courses.
- Encourage a culture of listening to young people and taking account of their wishes and feelings, among all staff, in any measures the College may put in place to protect them.

Raise Awareness

- DSLs will ensure the College's safeguarding policies and procedures are known, understood and used appropriately;
- Link with the local SCP to make sure staff are aware of training opportunities and the latest local policies on safeguarding.
- Help to instil a culture of vigilance and professional curiosity

Child protection file

Where young people leave the College ensure their child protection file is transferred to the new school or college within 5 days. This should be transferred separately from the main student file, ensuring secure transit and confirmation of receipt should be obtained. CPOMs will be used where this is possible.

All Staff

All staff should:

- know how to respond if a child tells them they are being abused, exploited or neglected. Staff should know how to manage an appropriate level on confidentiality, involving only those who need to be involved. Staff should never promise a young child absolute confidentiality as this may not ultimately be in the best interests of the child.
- be able to reassure victims that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by not reporting any form of abuse and/or neglect. Nor should a victim ever be made to feel ashamed for making a report.
- be aware that children may not feel ready or know how to tell someone that they are being abused, exploited or neglected, and/or they may not recognise their experiences as harmful. For example, children may feel embarrassed, humiliated, or being threatened. This could be due to their vulnerability, disability and/or sexual orientation or language barriers. This should not prevent staff from having a professional curiosity and speaking to a DSL if they have concerns about a child it is also important that staff determine how best to build trusted relationships with children and young people which facilitate communication.
- understand part 1 of KCSIE 2022 (including Annex B) and any mandatory reporting duties.
- know the name of the Designated Lead and their role and responsibility.
- have an individual responsibility to refer Safeguarding concerns.
- uphold personal responsibility/code of conduct/teaching standards.
- be aware of WSCP/NYSCP child protection procedures and know how to access them.
- understand the definitions of abuse, physical abuse, emotional abuse, sexual abuse and neglect.
- recognise the need to be vigilant in identifying cases of abuse at the earliest opportunity.

- knows their duty concerning unsafe practices, in regard to children, by a colleague.
- undertakes appropriate discussion with parents prior to involvement with other agencies unless the circumstances preclude this.
- understand Ofsted grade descriptors in relation to personal development, behaviour and welfare of students.
- Monitor internet usage in accordance with PREVENT/KCSIE and knows how to recognise and respond to inappropriate internet use.

Good Practice Guidelines for Staff

To meet and maintain our responsibilities towards students we need to agree standards of good practice which form a code of conduct for all staff. Good practice includes:

- treating all students with respect
- being alert to changes in students' behaviour and to signs of abuse and neglect
- recognising that challenging behaviour/mental health issues, may be an indicator of abuse or trauma
- setting a good example by conducting ourselves appropriately, including online.
- involving students in decisions that affect them
- encouraging positive, respectful and safe behaviour among students including always challenging inappropriate, sexual or discriminatory language or behaviour.
- avoiding behaviour or language which could be seen as favouring students.
- avoiding any behaviour which could lead to suspicions of anything other than a professional relationship with students.
- reading and understanding the college's safeguarding policy and guidance documents on wider safeguarding issues, for example bullying, behaviour, and appropriate IT/social media use.
- asking the student's permission before initiating physical contact, such as assisting with dressing, physical support during PE or administering first aid
- maintaining appropriate standards of conversation and interaction with and between students, avoiding the use of sexualised or derogatory language, even in joke.
- being clear on professional boundaries and conduct with other staff when students present.
- being aware that the personal, family circumstances and lifestyles of some students lead to an increased risk of abuse
- applying the use of reasonable force only as a last resort and in compliance with college procedures
- dealing with student infatuations in an open and transparent way e.g. informing the correct managers and managing the situation in a way which is sensitive to the feelings of the student.
- referring all concerns about a student's safety and welfare to a DSL, or if necessary, directly to police or children's social care
- following the college's rules with regard to communication with students and use of social media and online networking
- avoiding unnecessary time alone with students and risk manage any time alone or 1:1 working.
- avoiding sharing excessive personal information with students.

All College staff are aware that inappropriate behaviour towards students is unacceptable and that their conduct towards students must be beyond reproach.

In addition, staff should understand that, under the Sexual Offences Act 2003, it is an offence for a person over the age of 18 to have a sexual relationship with a person under the age of 18, where that person is in a position of trust, even if the relationship is consensual. This means that any sexual activity between a member of the college staff and a student under 18 may be a criminal offence, even if that student is over the age of consent.

Children Who May Be Particularly Vulnerable

Some young people may have an increased risk of abuse. It is important to understand that this increase in risk is due more to societal attitudes and assumptions, and child protection procedures that fail to acknowledge children's diverse circumstances, rather than the individual child's personality, impairment or circumstances. Many factors can contribute to an increase in risk, including prejudice and discrimination, isolation, social exclusion, communication issues and reluctance on the part of some adults to accept that abuse can occur.

To ensure that all of our students receive equal protection, we will give special consideration to children who are:

- children with a social worker
- disabled or have special educational needs (SEND)
- Young Carers
- Children in Care/ those recently returned to family from care
- Children Missing Education CME
- privately fostered children
- LGBT (lesbian gay bisexual transgender)
- asylum seekers
- live transient lifestyles
- do not have English as a first language
- affected by domestic abuse
- affected by substance misuse/drug use
- affected by mental health issues including self-harm and eating disorders.
- affected by poor parenting
- at risk of Fabricated or Induced Illness
- at risk of gang and youth violence.
- living away from home
- vulnerable to being bullied, or engaging in bullying including cyber, homophobic, racist etc.
- missing from home or care
- living in chaotic and unsupportive home situations
- vulnerable to discrimination and maltreatment on the grounds of race, ethnicity, religion, disability or sexuality
- vulnerable to extremism or radicalisation.
- vulnerable to faith abuse
- involved directly or indirectly in child sexual exploitation CSE, CCE or trafficking
- at risk of Honour Based Violence (HBV) including;
female genital mutilation (FGM) , forced marriage and breast ironing.

This list provides examples of additional vulnerable groups and is not exhaustive.

Children with a social worker

We recognise these children are highly likely to have suffered trauma. We will promote educational outcomes of this group by DSL's appropriately sharing information about the welfare, safeguarding and child protection issues that this group of children are experiencing, or have experienced, with teachers and school and college leadership staff. DSL's will ensure staff, know who these children are, understand their academic progress and attainment and maintain a culture of high aspirations for this cohort; supporting teaching staff to identify the challenges that children in this group might face and the additional academic support and adjustments that they could make to best support these children.

SEND Pupils

We know disabled children are 3-4 times more likely to suffer abuse than those without disabilities. College staff are alert to this and the additional barriers that can exist when recognising abuse and neglect in this group of children:

- The potential for children with SEND or certain medical conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs
- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition or disability without further exploration
- Children with SEND being more prone to peer group isolation or bullying (including prejudice-based bullying) than other children
- Communication barriers and difficulties in managing or reporting these challenges

Our staff work to address these additional challenges and consider the extra time and specific support required to allow these children to communicate effectively. Extra consideration will be given if using restraint and the impact this can have for children and young people experiencing abuse

Emotional Health and Wellbeing

Mental health is a state of well-being in which every individual realises his or her own potential, can cope with the normal stresses of life, can work productively and fruitfully, and is able to make a contribution to her or his community. (World Health Organization)

In an average classroom 5 students will be suffering from a diagnosable mental health condition. In addition to this it is likely that many more pupils will be struggling with their emotional wellbeing. All staff are aware that mental health problems can, in some cases, be an indicator that a child has suffered or is suffering abuse. Only appropriately trained professionals can diagnose mental health problems but staff in College are well placed to identify behaviour that may suggest an issue. If staff have concerns about the mental health of a student they will speak to relevant staff within the College including, if necessary, a DSL. If a student presents with a medical emergency then this is actioned immediately. If individual care plans are required this should be drawn up involving the pupil, the parents and relevant health professionals. This can include:

- Details of a pupil's condition
- Special requirements and precautions
- Medication and any side effects
- What to do and who to contact in an emergency
- The role the College can play

We understand the impact that the global pandemic of coronavirus will have on our staff and students. At our College, we aim to promote positive mental health for every member of our staff and student body as well as respond to mental ill health. We will ensure emotional support is provided especially during stressful time e.g. exams.

Possible warning signs of mental health issues can include:

- Physical signs of harm that are repeated or appear non-accidental
- Changes in eating or sleeping habits
- Increased isolation from friends or family, becoming socially withdrawn
- Changes in activity and mood
- Unexplained changes in academic achievement
- Discussing or joking about self-harm or suicide
- Substance misuse and/or engaging in risk taking behaviour
- Expressing feelings of failure and/or hopelessness
- Changes in clothing – e.g. long sleeves in warm weather, wearing baggy clothes, looking unkempt or spending a disproportionate amount of time on appearance.
- Secretive behaviour
- Avoiding PE and /or communal changing
- Repeated lateness or absence from school without obvious explanation
- Repeated physical pain, nausea and other physical symptoms with no evident cause

This list is not exhaustive which is why as a school we invest in relationships with our students and being able to recognise, even small changes, in their individual behaviour and presentations.

We understand that taking a listening and empathetic approach is important when talking to students about their mental health issues. This can sometimes be what is initially needed by the student rather than advice or direction. If there are any safeguarding concerns discussion with the DSL will take place.

[Promoting and supporting mental health and wellbeing in schools and colleges - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/consultations/promoting-and-supporting-mental-health-and-wellbeing-in-schools-and-colleges)

Suicide

We recognise that suicide is one of the biggest killers of children and young people in the UK. Sadly, it is always a possibility that a school or college may have to face dealing with a suspected suicide of a young person or staff member. We followed the national guidance document 'Building a Suicide Safer School/College' by Papyrus; advice on policy, prevention, postvention etc.

<https://papyrus-uk.org/wp-content/uploads/2018/10/400734-Schools-guide-PAPYRUS.pdf>

<http://www.wakefield.gov.uk/health-care-and-advice/public-health/mental-health-wellbeing/childrens-mental-health>

Samaritans step by step guide responding to a suicide;

<https://www.samaritans.org/how-we-can-help/schools/step-step/step-step-resources/>

We have circulated Wakefield Public Health ‘Supporting a young person with suicidal thoughts’. Which provides staff with practical tips on how to talk to young people about suicide - <http://www.wakefield.gov.uk/Documents/health-care-advice/public-health/suicide-prevention-strategy.pdf>

If a serious incident happens involving one of our pupils we will immediately inform the Local Authority by contacting social care/MASH/MAST.

We have Death of a Student Procedure available on the intranet

Some Current Issues

There are many issues of concern affecting children today and not all can be listed here. For a guidance and further resources list see Part 1 and annex B in Keeping Children Safe in Education 2002 [Keeping children safe in education - GOV.UK \(www.gov.uk\)](http://www.gov.uk) The. The issues are often complex and overlap. For resources on a wide range of safeguarding topics <https://www.wakefieldscp.org.uk/education/> or <https://www.safeguardingchildren.co.uk/>

We will have a consistent approach of following a robust tutorial program to **educate our students about these issues**, following our procedures and consulting with other agencies if there are any concerns. Online safety is exceptionally important and will continue to receive a high priority as an issue, as it is often how issues are facilitated such as sexual harassment, CCE, CSE, radicalisation, bullying etc. Appropriate filters and monitoring are in place, as well as education of staff and pupils. See later section.

Children will often not feel ready or able to tell someone about the abuse, we work hard to build trusting and safe relationships with all of our pupils and all staff are encouraged to be professionally curious if they suspect safeguarding issues.

When to report to police the following guidance will be followed;

[2491596 C&YP schools guides.indd \(npcc.police.uk\)](#)

We also understand that if police are talking to a student, because they suspect them of a crime, the child must have an appropriate adult present e.g. parent/or relevant member of staff

Peer on Peer/Child on Child Abuse – sharing nudes & semi-nudes/bullying/racism/sexual assaults/physical assault/hazing or initiating

Child on child abuse, will always be taken seriously and acted upon, under the appropriate policies. These issues will be part of tutorials and discussions. Students will be encouraged to report any concerns freely and victims will be offered support by the student wellbeing officers.

Sexual Violence and Harassment Sexual violence and sexual harassment can occur between two children of any age and sex, from primary through to secondary stage and into colleges. It can occur through a group of children sexually assaulting or sexually harassing a single child or group of children. Sexual violence and sexual harassment exist on a continuum and may overlap; they can occur online and face to face (both physically and verbally) and are never acceptable.

Like with all safeguarding issues our staff will recognise that ‘it could happen here’ and be vigilant to signs and indicators that a student could be suffering.

Addressing inappropriate behaviour (even if it appears to be relatively innocuous) can be an important intervention that helps prevent problematic, abusive and/or violent behaviour in the future. Girls are especially vulnerable to this type of abuse.

Sexual Violence includes rape, assault by penetration and sexual assault.

Sexual Harassment is unwanted conduct of a sexual nature and can include lewd comments/sexual jokes, physical behaviour e.g. showing sexual pictures, deliberately touching/brushing up against someone, online sexual harassment, upskirting.

we will;

- never tolerate or normalise this behaviour and are very clear it is not an inevitable part of growing up;
- not tolerate or dismiss sexual violence or sexual harassment as “banter”, “part of growing up”, “just having a laugh” or “boys being boys”;
- challenge behaviour (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia and flicking bras/pulling down trousers and lifting up skirts.
- understand that all of the above can be driven by wider societal factors beyond the school and college, such as everyday sexist stereotypes and everyday sexist language.
- ensure this is addressed through our tutorial program.
- ensure all incidents are recorded and acted upon swiftly.

Consent is about having the freedom and capacity to choose. Consent can be withdrawn at anytime.

We recognise children with Special Educational Needs and Disabilities (SEND) are three times more likely to be abused than their peers. Additional barriers can sometimes exist when recognising abuse in SEND children. These can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child’s disability without further exploration;
- the potential for children with SEND being disproportionately impacted by behaviours such as bullying and harassment, without outwardly showing any signs; and
- communication barriers and difficulties overcoming these barriers.

Therefore, any reports of abuse involving children with SEND will involve liaison with the DSL (or deputy) and the SENCO.

Children who are lesbian, gay, bi, or trans (LGBT) can be targeted by their peers. In some cases, a child who is perceived by their peers to be LGBT (whether they are or not) can be just as vulnerable as children who identify as LGBT.

We will specifically speak to single sex groups of students/LGBT students through student union and student voice forums for their views.

We will follow outlined guidance and risk assessment in any cases of sexual violence and harassment between our students outlined in Part 5 of Keeping Children Safe in Education

Victims will never be blamed or made to feel ashamed for coming forward. We will ensure support for the alleged perpetrator as well as the alleged victim throughout the process. Support can run alongside any sanctions for perpetrator as we realise perpetrators may be victims themselves. We are aware that the term victim and perpetrator may not be how young people identify themselves and will be considerate of this especially when talking to students/parents.

We will seek advice from other agencies such as police or social care if the case is above early help or internal management. Any incidents of sexual violence will be reported to police. If

police then interview a student we understand the requirement for an Appropriate Adult to be present.

Students are encouraged to report any concerns by speaking to a tutor/student wellbeing or safeguarding officer or using studentcentral@wakefield.ac.uk or safeguarding@wakefield.ac.uk / godwind@selby.ac.uk or millerq@selby.ac.uk

Sexual Assault Referral Centre SARC;

<https://www.hazlehurstcentre.org/>

also see victim support services

In April 2021 in response to 'Everyone's Invited' website testimonies the NSPCC set up a Report Abuse in Education Helpline 0800 136 663. For children/adults/professionals and parents.

Upskirting

Upskirting is the term used to take sexually intrusive photographs up someone's skirt without their permission/knowledge with the intention of obtaining sexual gratification or to cause the victim humiliation, distress or alarm. This is a criminal offence. We will take police advice on any cases of this in College.

Sharing Nudes & Semi-nudes (previously known as Sexting/Youth Produced Sexual Imagery)

This is defined as the sending or posting of nude or semi-nude images, videos or live streams online by young people under the age of 18. This could be via social media, gaming platforms, chat apps or forums. It could also involve sharing between devices via services like Apple's AirDrop which works offline. Alternative terms used by children and young people may include 'dick pics' or 'pics'. The motivations for taking and sharing nude and semi-nude images, videos and live streams are not always sexually or criminally motivated.

This advice does not apply to adults sharing nudes or semi-nudes of under 18-year-olds. This is a form of child sexual abuse and must be referred to the police as a matter of urgency

The group will follow the below guidance to define, assess and respond to any incident; and staff will avoid viewing, saving or forwarding any images or videos. Agencies such as police and social care will be involved if required.

[Sharing nudes and semi-nudes: advice for education settings working with children and young people - GOV.UK \(www.gov.uk\)](#)

Searching screening and confiscation guidance for schools;

<https://www.gov.uk/government/publications/searching-screening-and-confiscation>

Children with Harmful Sexual Behaviour HSB/Wakefield HSB panel

Research suggests that up to 40 per cent of child sexual abuse is committed by someone under the age of 18.

Harmful sexual behaviour (HSB) is developmentally inappropriate sexual behaviour which is displayed by children and young people and which may be harmful or abusive (derived from

Hackett, 2014). It may also be referred to as sexually harmful behaviour or sexualised behaviour.

HSB encompasses a range of behaviour, which can be displayed towards younger children, peers, older children or adults. It is harmful to the children and young people who display it, as well as the people it is directed towards

The management of children and young people with sexually harmful behaviour is complex and the school will work with other agencies to risk assess and maintain the safety of the whole school community. Young people who display such behaviour may be victims of abuse themselves and the child protection procedures will be followed for both victim and perpetrator. Staff who become concerned about a pupil's sexual behaviour should speak to a DSL as soon as possible. We will consider the Brook Traffic Light tool when making judgements.

HSB panels

The support offered by this panel will be accessed via MASH if necessary. This will ensure a coordinated response for perpetrator as well as victim.

Panel members include;

Police

Social care

Forensic CAMHS

[Forensic child and adolescent mental health services \(CAMHS\) - South West Yorkshire Partnership NHS Foundation Trust](#)

Bullying

Is usually defined as behaviour that is:

- repeated
- intended to hurt someone either physically or emotionally
- often aimed at certain groups, for example because of race, religion, gender or sexual orientation
- where there is an imbalance of power

Is a very serious issue that can cause considerable anxiety and distress. At its most serious level, bullying can have a disastrous effect on a child's wellbeing and in very rare cases has been a feature in the suicide of some young people.

All incidences of bullying, including cyber-bullying, sexual bullying and prejudice-based bullying will be recorded and reported and will be managed through our behaviour and tackling-bullying procedures. If the bullying is particularly serious, or the tackling bullying procedures are deemed to be ineffective, the DSL's will consider implementing child protection procedures.

Bullying incidents including discriminatory and prejudicial behaviour e.g. racist, disability and homophobic bullying and use of derogatory language will be recorded.

Heart of Yorkshire Bullying and Harassment Policy is available on the intranet.

[Preventing bullying - GOV.UK \(www.gov.uk\)](#)

[Sexual and sexist bullying \(anti-bullyingalliance.org.uk\)](#)

[Cyberbullying Guidance | Childnet](#)

Hate Crime

Any hate crime/incident will be reported through local reporting mechanisms – Hate Crime/incident is any behaviour that anyone thinks was caused by hatred of: race, sexual orientation, gender identification, disability, religion or faith

A hate crime could be name calling, arson/fire, attacks or violence, damage such as to your house or car, graffiti or writing <http://www.wakefield.gov.uk/community/hate-crime> or <https://www.northyorkshire.police.uk/advice/advice-and-information/hco/hate-crime/how-to-report-hate-crime/>

Children Missing Education CME

A child going missing from education, which includes within the school day, is a potential indicator of abuse and neglect, including sexual or criminal exploitation. Unauthorised absences will be monitored and followed up in line with procedures, particularly where children go missing on repeated occasions. All staff will be aware of the signs of risk and individual triggers including travelling to conflict zones, FGM and forced marriage.

We will collect, where possible, more than one emergency contact number for each pupil.

Child Sexual Exploitation CSE

CSE is a form of sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person (male or female) under the age of 18 into sexual activity (a) in exchange for something the victim wants or needs, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can occur through the use of technology. CSE can affect 16/17 year olds who can legally consent to sex. It can affect both male and females and can include children who have been moved/trafficked for exploitation.

This is a serious crime and is never the victim's fault even if there is some form of exchange.

The police team can be contacted for extra support and information. (details in appendix) NB they do not take the place of your usual reporting procedures.

[Appropriate language: Child sexual and/or criminal exploitation guidance for professionals - Tackling Child Exploitation \(researchinpractice.org.uk\)](#)

[Child sexual exploitation: definition and guide for practitioners - GOV.UK \(www.gov.uk\)](#)

Child Criminal Exploitation CCE / County Lines

In a similar way to sexual exploitation CCE is when there is a power imbalance where children are used by individuals or gangs to take part in criminal activity, this can include drug running, working in cannabis factories, stealing/pickpocketing, vehicle crime etc. The child often believes they are in control of the situation. High levels of violence, coercion and intimidation are common. Where gangs/organised groups often manipulate children and create situations where the child owes them money – debt bonding. Staff will be careful to not use language that blames the victim – see above guidance.

County lines is the police term for urban gangs supplying drugs to suburban areas and market and coastal towns using dedicated mobile phone lines or “deal lines”. It involves child criminal exploitation (CCE) as gangs use children and vulnerable people to move drugs and money. Gangs establish a base in the market location, typically by taking over the homes of local vulnerable adults by force or coercion in a practice referred to as ‘cuckooing’.

County lines is a major, cross-cutting issue involving drugs, violence, gangs, safeguarding, criminal and sexual exploitation, modern slavery, and missing persons; and the response to

tackle it involves the police, the National Crime Agency, a wide range of Government departments, local government agencies and VCS (voluntary and community sector) organisations. County lines activity and the associated violence, drug dealing, and exploitation have a devastating impact on young people, vulnerable adults and local communities.

<https://www.gov.uk/government/publications/criminal-exploitation-of-children-and-vulnerable-adults-county-lines>

Serious Violence

Staff will look out for signs that indicate that a student may be at risk of or involved in serious crime, including criminal networks or gangs and follow the appropriate referral pathways for help and support. **We understand that young people who are likely to be involved in violence may have previously suffered trauma and abuse and that peak times, for serious violence involving young people, can be just before or just after college hours.**

Practical advice for schools/colleges;

Searching screening and confiscation guidance for schools

[Searching, screening and confiscation at school - GOV.UK \(www.gov.uk\)](#)

Domestic Abuse

This does not have to include violence to be classed as abuse.

Any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are personally connected. The abuse can encompass, but is not limited to:

- psychological
- physical
- sexual
- financial
- emotional

1:4 women and 1:6 men will experience Domestic abuse at some time in their lifetime. We will be mindful of how this affects young people, even when they are not directly involved, and that our staff may themselves be victims.

<http://thehideout.org.uk/>

<https://relationshipmatters.org.uk/>

Honour Based Violence HBV – inc breast ironing/FGM/Forced Marriage.

Female Genital Mutilation FGM

This is illegal and a form of child abuse. It involves a procedure to remove all or some of the female genitalia or any other injury to these organs. Staff will be aware of the signs and indicators of this and their legal duty to report **known** cases on under 18's to the police. Reporting form is available on the WSCP website – education- templates.

Multi agency guidelines;

<https://www.gov.uk/government/publications/multi-agency-statutory-guidance-on-female-genital-mutilation>

<http://nationalfgmcentre.org.uk/wp-content/uploads/2019/06/FGM-Schools-Guidance-National-FGM-Centre.pdf>

Forced Marriage

Is illegal and a form of child abuse. A marriage entered into without the full and free consent of one or both parties, where violence threats or coercion is used.

Multi agency guidelines;

<https://www.gov.uk/government/publications/handling-cases-of-forced-marriage-multi-agency-practice-guidelines-english>

Breast Ironing

Breast Ironing, also known as breast flattening, is the pounding and massaging of a pubescent girl's breasts using hard or heated objects to try to make them stop developing or disappear.

National Charity;

<https://karmanirvana.org.uk/>

Preventing Radicalisation

This is part of our wider safeguarding duty. We recognise that Colleges play a significant part in the prevention of this type of harm. We will include education through our tutorial curriculum and encourage 'British Values' and critical thinking.

We will intervene where possible to prevent vulnerable young people being radicalised. The internet has become a major factor in radicalisation and recruitment.

Extremism – vocal or active opposition to our fundamental values, including democracy, rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces.

We are aware extremism spans many topics including misogynistic eg INCEL, however in the North East region right wing extremism remains the most common form.

An incel, an abbreviation of "involuntary celibate", is a member of an online subculture of people who define themselves as unable to find a romantic or sexual partner despite desiring one. Discussions in incel forums are often characterised by resentment and hatred, misogyny, misanthropy, self-pity and self-loathing, racism, a sense of entitlement to sex, and the endorsement of violence against women and sexually active people.

Radicalisation – refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.

Terrorism – an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

As with all other forms of abuse, staff should be confident in identifying pupils at risk and act proportionately.

We will work with other partners including the Channel Panels – voluntary confidential support programs for those who are considered vulnerable to being drawn into terrorism

The DSL team is appropriately trained and be able to offer advice, support and information to other staff.

We will ensure safe internet filters are in place and ensure our pupils are educated in online safety.

Resources to educate pupils: [Educate Against Hate - Prevent Radicalisation & Extremism](#)

Prevent in Wakefield - Wakefield Council

Private Fostering

A private fostering arrangement is one that is made privately (without the involvement of a local authority) for the care of a child under the age of 16 years (under 18, if disabled) by someone other than a parent or close relative, in their own home, with the intention that it should last for 28 days or more. (*Close family relative is defined as a 'grandparent, brother, sister, uncle or aunt' and includes half-siblings and stepparents; it does not include great-aunts or uncles, great grandparents or cousins.)

The group will follow the legal requirements of reporting.

Dealing with issues relating to Parental Responsibility – Dispute Resolution

<https://www.gov.uk/government/publications/dealing-with-issues-relating-to-parental-responsibility>

<https://helpwithchildarrangements.service.justice.gov.uk/>

Fabricated Illness

Fabricated or induced illness (FII) is a rare form of child abuse. It occurs when a parent or carer, usually the child's biological mother, exaggerates or deliberately causes symptoms of illness in the child

<https://www.gov.uk/government/publications/safeguarding-children-in-whom-illness-is-fabricated-or-induced>

<https://www.nhs.uk/conditions/fabricated-or-induced-illness/>

Online Safety

Students increasingly use mobile phones, tablets and computers daily. They are a source of fun, entertainment, communication and education. However, we know that some adults and young people will use these technologies to harm children. The harm might range from sending hurtful or abusive communications, to enticing children to engage in sexually harmful conversations, webcam photography, encouraging radicalisation or face-to-face meetings. The group's IT policy explains how we aim to keep pupils safe in school which includes reasonable filters and monitoring. Cyberbullying and sexting by pupils, via texts and emails, will be treated as seriously as any other type of bullying and in the absence of a child protection concern will be managed through our anti-bullying and confiscation procedures.

Chatrooms and some social networking sites are the more obvious sources of inappropriate and harmful behaviour. Students and Parents are encouraged to consider measures to keep safe when using social media and **the group recommends downloading the Safer Schools app to keep staff, parents and students informed and updated.**

The breadth of issues classified within online safety is considerable, but can be categorised into four areas of risk:

- **Content:** being exposed to illegal, inappropriate or harmful material; for example pornography, fake news, racism, misogyny, self-harm, suicide, antisemitism or radical and extremist views;
- **Contact:** being subjected to harmful online interaction with other users; for example Child on Child pressure, commercial advertising as well as adults posing as children or young adults with the intention to groom and exploit them for financial, criminal, sexual or other purposes.
- **Conduct:** personal online behaviour that increases the likelihood of, or causes, harm; for example making, sending and receiving explicit images (consensual and non consensual sharing of nudes and semi nudes and 'or pornography, or online bullying and
- **Commerce.** Risks such as online gambling, inappropriate advertising, phishing or other financial scams.

Students will be educated in online safety, and regularly reminded, as an ongoing part of our safeguarding promotions.

Acceptable IT use for staff and pupils will be enforced and parents are also informed of expectations.

Helping Young People to Keep Themselves Safe

Young people are taught to understand relationships, promote British values and respond to and calculate risks via tutorials and other curriculum lessons where appropriate. They will have access to self-help resources through communication and support channels in their college.

Our approach is designed to help young people to think about risks they may encounter and have help to work out how those risks might be overcome and the support available to them. Discussions about relationships and risk are empowering and enabling for all young people and promote sensible behaviour rather than fear or anxiety. Young people are taught how to conduct themselves and how to behave in a responsible manner. They are also reminded regularly about e-safety, including sexting and tackling bullying procedures including the legalities and consequences.

The College promotes an ethos of respect for young people and the emotional health and wellbeing of our students is important to us. Students are encouraged to speak to a member of staff, counsellors, youth workers or mentors in confidence about any worries they may have.

However, all our students are aware that if they disclose that they are being harmed or that they have, or intend, to harm another that this cannot be kept secret and that information will need to be shared.

Online safety is exceptionally important and will continue to receive a high priority as an issue, as it is often how issues are facilitated such as CCE, CSE, radicalisation, bullying etc. Appropriate filters and monitoring are in place, as well as education of staff and students.

Online safety is exceptionally important and will continue to receive a high priority as an issue, as it is often how issues are facilitated such as CCE, CSE, radicalisation, bullying etc. Appropriate filters and monitoring are in place, as well as education of staff and students.

Support for those involved in a child protection issue

Child abuse is devastating for the young person and can also result in distress and anxiety for staff who become involved.

We will support students, their families, and staff by:

- taking all suspicions and disclosures seriously
- nominating a link person (usually a DSL) who will keep all parties informed and be the central point of contact
- where a member of staff is the subject of an allegation made by a student, separate link people will be nominated to avoid any conflict of interest
- responding sympathetically to any request from students or staff for time out to deal with distress or anxiety
- maintaining confidentiality and sharing information on a need-to-know basis only with relevant individuals and agencies
- maintaining and storing records securely
- offering details of helplines, counselling or other avenues of external support

- following the procedures laid down in our whistleblowing, complaints and disciplinary procedures
- cooperating fully with relevant statutory agencies.

Complaints Procedure

Our complaints procedure will be followed where a student or parent raises a concern about poor practice towards a student that initially does not reach the threshold for child protection action. Poor practice examples include unfairly singling out a student, belittling a student or discriminating against them in some way. Complaints are managed by senior staff, the exec team and governors.

Complaints from staff are dealt with under the group's complaints or disciplinary and grievance procedures.

If you have concerns about a colleague or safeguarding practice

Staff who are concerned about the conduct of a colleague or safeguarding practice within the college are undoubtedly placed in a very difficult situation.

All staff must remember that the welfare of the child is paramount, and staff should feel able to report all concerns about a colleague or the safeguarding practice within the college. The group's **Whistleblowing Policy (public interest disclosure)** enables staff to raise concerns or allegations in confidence and for a sensitive enquiry to take place.

Allegations against staff

Any concerns or allegations that any member of staff has

- Behaved in a way which has harmed, or may have harmed a child;
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way that indicates they would pose a risk of harm to children, or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children

should be immediately reported to Exec Director HR & OD. Allegations against the Principal should be reported to the Chair of Governors. Staff may also report their concerns directly to Police or Designated Officer/LADO or NSPCC Whistle blowing helpline if they believe direct reporting is necessary to secure action.

There should be urgent initial consideration in order to establish if there is substance to the allegation, however there should be no investigation until consultation with the LADO. Full and accurate records will be made at every stage.

Referrals must be made to the LADO within one working day. Case managers may then be invited to a meeting coordinated by the LADO.

Depending on outcomes of investigations it may be necessary to report to the DBS/Teaching Regulation Agency as per guidance.

It is rare for a child to make an entirely false or malicious allegation, although misunderstandings and misinterpretations of events do happen. We recognise that a young person may also make an allegation against an innocent party because they are too afraid to

name the real perpetrator. However, if a young person is found to continually make false allegations this may be a sign of mental health issues and a referral to services such as CAMHs (Child and Adolescent Mental Health) may be required.

An uncomfortable fact is that some professionals do pose a serious risk to students, and we must act on every allegation. However, staff who are the subject of an allegation have the right to have their case dealt with fairly, quickly and consistently and to be kept informed of its progress. Suspension is not the default option and alternatives to suspension will always be considered. In some cases, staff may be suspended where this is deemed to be the best way to ensure that children are protected. Staff will be advised to contact their trade union and will also be given access to a named representative.

The full procedures for dealing with allegations against staff can be found in *Keeping Children Safe in Education part 4*

Staff, parents and governors are reminded that publication of material that may lead to the identification of a teacher who is the subject of an allegation is prohibited by law. Publication includes verbal conversations or writing, including content placed on social media sites. We will communicate this to all parties.

Staff Training and Induction

It is important that all staff, including temporary and volunteers, have regular training to enable them to recognise the possible signs of abuse and neglect and to know what to do if they have a concern including Early Help and Whistleblowing. All staff, including site staff, will participate in training in Safeguarding, online or face to face, and will receive regular safeguarding updates in the form of email/newsletter/staff site meetings.

The DSL/DSPs will receive training updated at least every two years, including training in inter-agency procedures. They will be supported and encouraged to attend additional training to keep up to date, including forums and multi-agency training offered by WSCP and the Safeguarding Advisor.

Staff should have an understanding of ACE's Adverse Childhood Experiences and understand, and work towards trauma informed practice.

Governors should access strategic governor safeguarding training.

All training will be recorded and monitored to flag in advance when updates are required.

New staff and governors will receive an induction in safeguarding which includes the Group's safeguarding policy, details for the DSLs, reporting and recording arrangements, the staff code of conduct and the whistleblowing policy. Staff will sign to say they have received this and understood.

Safer recruitment

We endeavour to ensure that we do our utmost to employ 'safe' staff by following the guidance in Keeping Children Safe in Education together with the local SCPs and the group's individual procedures. Recruitment, selection and pre-employment vetting is carried out in accordance with Keeping Children Safe in Education. Including;

- Verifying identity
- Enhanced DBS (disclosure and barring service) check for those in regulated activity
- Prohibition from teaching check – teacher services system for all teaching posts
- EEA Restrictions

- Verification on mental and physical fitness
- Right to work in UK
- Professional qualifications.
- References will be sought before interview, so any concerns can be explored.
- At least one member of each recruitment panel will have attended safer recruitment training.
- The Single Central Record is maintained in accordance with Keeping Children Safe in Education.
- We will obtain written confirmation from supply agencies that agency and third-party staff have been appropriately checked.

Volunteers

Volunteers, including governors will undergo checks commensurate with their work in the college and contact with students i.e. if they are in regulated activity or not.

Contractors

We will check the identity of all contractors working on site and requests checks where they work in regulated activity or unsupervised.

Visitors

All visitors will be asked to sign in and wear a badge identifying them as a visitor and will be escorted at all times whilst on the premises. Visitors who have been pre-checked and added to the single central record will be given a visitor plus badge which allows unaccompanied access. All visitors are expected to enter via reception and observe the college's safeguarding and health and safety regulations to ensure children in college are kept safe.

Photography and images

The vast majority of people who take or view photographs or videos of children do so for entirely innocent and acceptable reasons. Sadly, some people abuse children through taking or using images, so we must ensure that we have some safeguards in place.

To protect students, we will:

- seek their consent for photographs to be taken or published (for example, on our website or in newspapers or publications)
- seek parental consent if appropriate
- not use students full name with an image
- ensure students are appropriately dressed
- ensure that personal data is not shared
- store images appropriately, securely and for no longer than necessary
- use college equipment, not personal devices
- encourage students to tell us if they are worried about any photographs that are taken of them.

Physical intervention and use of reasonable force

All staff are encouraged to use de-escalation techniques and creative alternative strategies that are specific to the young person. Restraint will only be used as a last resort and all incidents of this are reviewed, recorded and monitored. Reasonable force will be used in accordance with government guidance.

<https://www.gov.uk/government/publications/use-of-reasonable-force-in-schools>

Intimate Care

If a young person requires regular intimate care on site this is likely to be written into a care plan which staff will adhere to. If an accident occurs and a young person needs assistance

with intimate care this will be risk managed to afford dignity to the young as well as security to the staff member. Staff will behave in an open and transparent way by informing another member of staff and having the student's consent to help. Parents will be informed, and incidents recorded.

Child Protection Procedures

Categories and Definitions

To ensure that our students are protected from harm, we need to understand what types of behaviour constitute abuse and neglect.

Abuse is a form of maltreatment of a child or young person. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Young people may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse.

Young people may be abused by an adult or adults, men or women, however it is important that we recognise that students can also be abused by another young person or children.

Contextual Safeguarding/Extra Familial Abuse

Contextual Safeguarding/Extra Familial Abuse is an approach to understanding, and responding to, young people's experiences of significant harm beyond their families. It recognises that the different relationships that young people form in their neighbourhoods, schools and online can feature violence and abuse. Parents and carers have little influence over these contexts, and young people's experiences of extra-familial abuse can undermine parent-child relationships. Extra Familial Abuse, therefore, expands the objectives of child protection systems in recognition that young people are vulnerable to abuse in a range of social contexts, for example online safety, drug use, CCE, CSE, mental health issues.

<https://contextualsafeguarding.org.uk/>

There are four categories of abuse: physical abuse, emotional abuse, sexual abuse and neglect.

Physical abuse

Physical abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse

Sexual abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to:

- provide adequate food, clothing and shelter (including exclusion from home or abandonment);
- protect a child from physical and emotional harm or danger;
- ensure adequate supervision (including the use of inadequate caregivers); or
- ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Indicators of abuse

Physical signs define some types of abuse, for example, bruising, bleeding or broken bones resulting from physical or sexual abuse. The identification of physical signs is complicated, as a young person may go to great lengths to hide injuries, often because they are ashamed or embarrassed, or their abuser has threatened further violence or trauma if they 'tell'. It is also quite difficult for anyone without medical training to categorise injuries into accidental or deliberate with any degree of certainty.

However, some young people may have no physical signs, or they may be harder to see (e.g. bruising on black skin) therefore staff need to also be alert to behavioural indicators of abuse.

A child who is being abused or neglected may:

- have bruises, bleeding, burns, fractures or other injuries
- show signs of pain or discomfort
- keep arms and legs covered, even in warm weather
- be concerned about changing for PE or swimming
- look unkempt and uncared for
- change their eating habits
- have difficulty in making or sustaining friendships
- appear fearful
- be reckless with regard to their own or other's safety
- self-harm
- frequently miss College or arrive late
- show signs of not wanting to go home
- display a change in behaviour – from quiet to aggressive, or happy-go-lucky to withdrawn
- challenge authority
- become disinterested in their college work
- be constantly tired or preoccupied
- be wary of physical contact
- be involved in, or particularly knowledgeable about drugs or alcohol
- display sexual knowledge or behaviour beyond that normally expected for their age.

Individual indicators will rarely, in isolation, provide conclusive evidence of abuse. They should be viewed as part of a jigsaw, and each small piece of information will help the DSL to decide how to proceed.

It is very important that staff report and record their concerns as they occur – they do not need disclosure or ‘absolute proof’ that the child is at risk.

Taking Action

Safeguarding is everyone’s business (Children’s Acts 1989 and 2004)
All Staff need to be aware of and recognise early signs of abuse and other vulnerabilities and possible issues and be familiar with procedures. We actively encourage a ‘never do nothing’ attitude if staff have a concern about a child and promote discussion with DSL if in any doubt. Any child, in any family in any school or college could become a victim of abuse. Staff should always maintain an attitude of “it could happen here”.

If you are concerned about a student’s welfare

There will be occasions when staff may suspect that a student may be at risk but have no ‘real’ evidence. The student’s behaviour may have changed, their artwork could be bizarre, they may write stories or poetry that reveal confusion or distress, or physical but inconclusive signs may have been noticed. In these circumstances, staff should give the student the opportunity to talk. The signs they have noticed may be due to a variety of factors, for example, a parent has moved out, a pet has died, a grandparent is very ill. It is fine for staff to ask the student if they are OK or if they can help in any way.

Staff should record these early concerns via the local student systems. If the student does begin to reveal that they are being harmed, staff should follow the advice below. Following an initial conversation with the student, if the member of staff remains concerned, they should discuss their concerns with the DSL.

It is not your responsibility to investigate or decide whether a child has been abused.

Key points to remember for acting when you RECOGNISE signs of possible abuse or a disclosure is made:

RECORD concerns as a confidential comment on ProMonitor or other system ensuring to copy in Carol Price/Michelle Jones or Glenn Miller/Debbie Godwin (Selby) or another appropriate person by name

- For learners where there is a risk of harm speak to DSL as a matter of urgency and record by completing a safeguarding report form available on the on the staff intranet.
- Record any disclosures using the young person’s words as far as possible to avoid any misunderstandings and time and date the disclosure. Also Record any actions taken as a result of the disclosure.
- Share information on a need-to-know basis only – do not discuss the issue unnecessarily with colleagues, friends or family.
- if you believe the young person is at imminent risk of serious harm take the action necessary to help the young person, for example, call Wakefield Social Care Direct on **0345 8 503 503** or for North Yorkshire **01609 780780**. Always ring Police on 999 in an emergency.
- seek support for yourself if you are distressed (Contact HR for advice).

If a student discloses to you

It takes a lot of courage for a young person to disclose that they are being abused. They may feel ashamed, particularly if the abuse is sexual; their abuser may have threatened what will happen if they tell; they may have lost all trust in adults; or they may believe, or have been told, that the abuse is their own fault.

If a student talks to a member of staff about any risks to their safety or wellbeing, **the staff member will need to let the student know that they must pass the information on** – staff are not allowed to keep secrets. The point at which they tell the student this is a matter for professional judgement. If they jump in immediately the student may think that they do not want to listen, if left until the very end of the conversation, the student may feel that they have been misled into revealing more than they would have otherwise.

During their conversations with the students, it is best practice for staff to:

- allow students to speak freely
- remain calm and not overreact – the student may stop talking if they feel they are upsetting their listener
- give reassuring nods or words of comfort – ‘I want to help’, ‘This isn’t your fault’, ‘You are doing the right thing in talking to me’
- not be afraid of silences, and allow space and time for student to continue, staff will recognise the barriers the student may have had to overcome to disclose.
- clarifying or repeating back to check what they have heard if needed but will not lead the discussion in any way and *will not* ask direct or leading questions – such as... whether it happens to siblings too, or what does the student’s mother think about it.
- use questions such as Tell me.....? Is there anything else?
- at an appropriate time tell the student that in order to help them, the member of staff must pass the information on
- not automatically offer any physical touch as comfort. It may be anything but comforting to a young person who has been abused.
- remember professional boundaries and not share personal experiences such as ‘that happened to me’
- avoid admonishing the student for not disclosing earlier. Saying things such as ‘I do wish you had told me about this when it started’ or ‘I can’t believe what I’m hearing’ may be the staff member’s way of being supportive but may be interpreted by the young person to mean that they have done something wrong
- tell the student what will happen next. The student may agree to go with you to see the Designated Safeguarding Lead. Otherwise let them know that you will be consulting them.
- write up their conversation as soon as possible on the record of concern form and hand it to the designated lead
- seek support if they feel distressed

Notifying parents

The College will normally seek to discuss any concerns about students under 18 with their parents. This must be handled sensitively, and the DSL may be in the most informed position to contact the parent in the event of a concern, suspicion or disclosure.

However, if there is reason to believe that notifying parents could increase the risk to the child or exacerbate the problem, advice will first be sought from Social Care Direct.

Records and Monitoring

Why recording is important

Staff are encouraged to understand why it is important that recording is timely, comprehensive and accurate and what the messages are from serious case reviews are in terms of recording and sharing information.

It needs to be borne in mind that what constitutes a 'concern' for one young person may not be a 'concern' for another and the particular young person's circumstances and needs will differ i.e. a young person subject to a child protection plan, Child in Care, Child in Need may be looked at differently to a young person recently bereaved, parental health issue etc.

Professional judgement therefore should be used when making decisions about reporting a "concern" using the notice, check, share process.

Child Protection incidents or disclosures should always be shared with the Group Safeguarding Lead.

Recording welfare/wellbeing or other concerns

Concerns about a student or their welfare should be recorded ASAP on the relevant college system

Urgent Child Protection issues or disclosure - Referral to Social Care Direct

Staff should discuss concerns directly with a DSL immediately if a young person is being harmed or is at imminent risk of being harmed. A safeguarding referral form is available on the Safeguarding Centre on staff intranet and should be used to share any disclosures of abuse/neglect where a young person is thought to be at risk of harm. If a DSL is not available, contact the local College Director/Senior Lead. If there is no member of the Safeguarding team available staff should take action as necessary to safeguard the young person, for example the police (101 or 999) or Wakefield Social Care MASH **(0345 8503 503)** North Yorkshire Social Care **(01609 780780)**. You should always back up reports in writing using the referral form and following referral procedures and pass these to the DSL at the earliest opportunity for safe keeping and to inform future actions.

The DSL will make a referral to Social Care MASH if it is believed that a student is suffering or is at risk of suffering significant harm. This should be done with reference to the relevant Continuum of Need and using the Signs of Safety approach. If there is already a social worker assigned to this case, the social worker should be contacted.

The student (subject to their understanding) and the parents should be told that a referral is being made, unless to do so would increase the risk to the child.

Continuum of Need

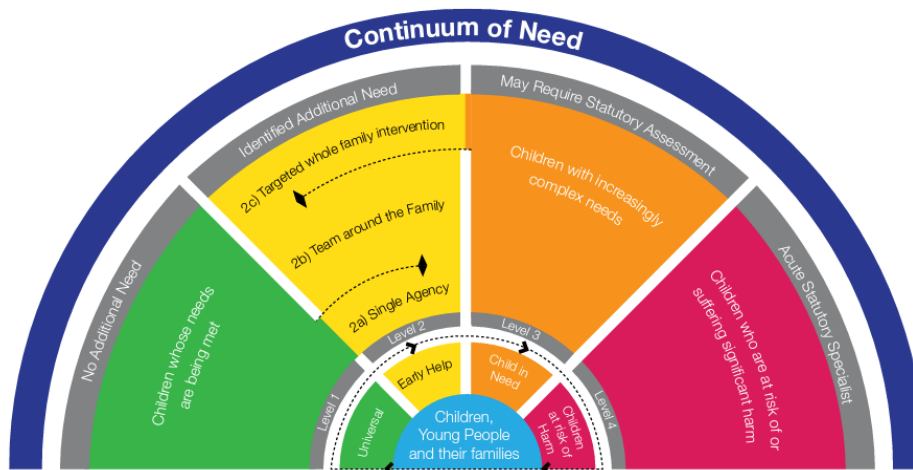

Wakefield has a Continuum of Need for children and families who need support, this ranges from Level 1 to level 4. It is worth noting that a cause for concern does not always require a Level 4 response, it may be the family need a lower level of support to help the situation. The Children First hubs are able to signpost school staff and support at Level 3.

- Level 1 – Universal services are meeting the needs – no extra intervention needed.
- Level 2 – For example a universal service is providing extra support or have referred to one other single agency. College can use Signs of Safety to assess at this level and provide Early Help through TAF
- Level 3 – Multi agency approach to support. Multi agency early help assessment. Children First Hub may be able to support or case hold.
- Level 4 – Statutory intervention and assessment is needed where child is at risk or currently suffering significant harm. Social care/ police assess and lead at this level. CIN/CP

Selby Continuum of Need uses the terms below

- Level 1 Where there is no additional need/Universal services
- Level 2 Identified additional needs/ vulnerable/Early Help
- Level 3 May require statutory assessment/ complex/ CIN
- Level 4 Acute statutory specialist/critical/ Children at risk of harm

Colleges do have a duty to intervene early and support however it is not colleges responsibility to investigate or decide whether a child has been abused. College does not have the powers to investigate child protection concerns.

If you are concerned about a student's welfare

There will be occasions when staff may suspect that a pupil may be at risk but have no 'real' evidence. The student's behaviour may have changed, for example their artwork could be bizarre, they may write stories or poetry that reveal confusion or distress, or their behaviour may have changed. In these circumstances, **staff will give the pupil the opportunity to talk.** The signs they have noticed may be due to a variety of factors, for example, a parent has moved out, a pet has died, or a grandparent is very ill.

It is fine for staff to ask the pupil if they are OK, if they are worried about anything or if they want to talk.

Staff should record these early concerns. If the pupil does begin to reveal that they are being harmed, staff should follow the dealing with a disclosure advice.

Following an initial conversation with the student, if the member of staff remains concerned, they should discuss their concerns with a DSL.

Early Intervention

If the concern is low level and does not require other agency involvement a DSL will initiate early intervention to;

- Engage with the parents/carers as soon as possible (unless the situation is so serious that would put the student at increased risk.) We then can evidence quick action was taken and the length of time of involvement.
- We will invite the parents/carers into school for a meeting to demonstrate professional concerns and discuss a supportive working partnership for the best interests of the student (e.g. additional in school support)
- At this meeting we will discuss the plan of next action should the situation not improve and offer signposting to other local services.
- We will record all contacts with the family, dates and times, including phone calls/letters.
- We will then monitor the student closely - behaviour/concerns/interaction with peers and parents/academic progress etc. This will demonstrate the frequency of concerns and help to build patterns.

If necessary, the college will assess using the Signs of Safety framework – what are we worried about? what’s working well? what needs to happen? (Including all subsections, e.g. complicating factors) and then scaling.

If college needs further help other agencies will be contacted and if issues escalate or local advice is needed the Children First Hub can be contacted and a referral made using the Early Help referral form

<http://www.wakefield.gov.uk/schools-and-children/early-help>

<https://www.safeguardingchildren.co.uk/professionals/early-help/>

If the situation does not appear to be improving, staff should press for reconsideration and if necessary, follow WSCP/NYSCP professional disagreement procedures.

Any member of staff can refer to other agencies in exceptional circumstances i.e. in an emergency or when there is a genuine concern that action has not been taken.

Keeping Records

- All records will provide a factual and evidence-based account and there should be accurate recording of any actions.
- Records should be signed, dated and, where appropriate, witnessed.
- At no time will a staff take photographic evidence of any injuries or marks to a child’s person. A body map should be used instead in accordance with recording guidance.
- It may be appropriate for the DSL to open a secure safeguarding file and start a chronology page. This will help in building patterns and decision making.
- Feedback will be given to staff members making the report of any actions; however this will be on a need to know basis. It may not be appropriate for staff members to know every detail of the young person’s life.

The Safeguarding File

- The establishment of a safeguarding file is an important principle in terms of storing and collating information about children which relates to either a safeguarding concern or an accumulation of welfare concerns which are outside of the usual range of concerns in ordinary life events.
- Files should be transferred from feeder schools within 5 days of the student enrolling
- Files may be electronic (e.g. CPOMs) or paper based will be kept separately from the main student file and **will be held securely only to be accessed by the Group Lead/Deputy.**
- College will keep records of concerns about young people (written or electronically) even where there is no need to refer the matter to external agencies immediately.
- All incidents/episodes/contacts should be recorded e.g. information shared with other agencies. This will help build a picture and help the DSL in analysis and action, which may include no further action, monitoring, whether an EHA should be undertaken, or whether a referral should be made to other agencies - Social Care Direct/Early Help Hubs in line with the Continuum of Need documents and reflecting the Signs of Safety approach (SOS).
- In cases where there is multi agency involvement - meetings and plans, actions and responsibilities shall be clarified, and outcomes recorded.
- **Files will be made available for external scrutiny for example by a regulatory agency or because of a serious case review or audit.**
- Records will be kept up to date and reviewed regularly by the Group lead/Deputy to evidence and support actions taken by staff in discharging their safeguarding arrangements.

- The file can be non-active in terms of monitoring i.e. a child is no longer in Care, subject to a child protection plan and re-activated if necessary.
- If the child moves to another school or college, the file will be securely sent, to the DSL at the new establishment and a written receipt will be obtained.

Confidentiality and sharing information

The Group Lead/Deputy/DSL will decide who else needs to have the information and they will disseminate it on a 'need-to-know' basis.

The Seven Golden Rules for Safeguarding Information Sharing 2015

- Data Protection/Human rights laws are not a barrier
- Be open and honest (unless unsafe or inappropriate)
- Seek advice (anonymise if necessary)
- Share with consent if appropriate
- Consider safety and wellbeing
- Necessary, proportionate, relevant, adequate, accurate, timely and secure
- Keep a record of decision and reason for it

<https://www.gov.uk/government/publications/safeguarding-practitioners-information-sharing-advice>

The Data Protection Act does not prevent college staff from sharing information with relevant agencies, where that information may help to protect a child. Ideally information sharing will be done in writing so that there is an evidence trail however there may be occasions where this method is too slow. In cases where agencies such as the police or MASH/MAST ring the College requesting information reception staff will take a message and inform the DSL *immediately*, the DSL will ensure they can identify who is requesting the information before sharing and then record what has been shared, when, why and with whom.

Requests for information from the police or unknown agencies should be accompanied by a Data Protection request and sent to DPO@wakefield.ac.uk.

Child protection records are normally exempt from the disclosure provisions of the Data Protection Act, which means that children and parents do not have an automatic right to see them. If any member of staff receives a request from a student or parent to see child protection records, they will refer the request to the DSL.

Any personal safeguarding information shared with external agencies will be done so securely e.g. face to face, by secure email, password protected or recorded delivery.

Special Circumstances

Looked after Children LAC/Children in Care CiC and Previously in Care

Children in care and previously looked after children start college with the disadvantage of their pre-care experiences and often have special educational needs. Most commonly, the reason for children becoming looked after is as a result of abuse or neglect. The school must ensure that appropriate staff have information about a child's looked after status and care arrangements, including contact. The Designated Teacher for Children in Care and previously looked after and the DSL team have details of the child's social worker / carer, parent or guardian. As well as the name and contact details of the local authority's Virtual School Head. The Designated Teacher will work within the Wakefield Pupil Premium Plus policy guidelines to support the academic

progress of CiC / PCiC through appropriate target setting in their termly PEP (Personal Education Plan)

Work Experience

The College has detailed procedures to safeguard students on placement as part of their course, including arrangements for checking people who provide placements, which are in accordance with the guidance in *Keeping Children Safe in Education*.

Young people staying with host families

The college may arrange for students to stay with a host family during trips abroad. In such circumstances this may amount to Private Fostering and the college follows the guidance in *Keeping Children Safe in Education* to ensure that hosting arrangements are as safe as possible.

Some overseas students may reside with host families during college term-time and we will check that such arrangements are safe and suitable. Anyone over 18 residing in a host household will undertake a DBS check
